Routledge

CURRENT PROJECT DOCTOR BEAT

Music stimulates movement in people with Parkinson's disease.

Each activity asks for its 'own beat'

Martien van Oostrum, Frankeland, Schiedam

Students compose the music, develop the exercises and do research.

I GOT A BEGUINE

A –Theme Klarinet (Rowing)

B –Theme Saxophone (Steering)

**CURRENT PROJECT
IPOD MUSIC LISTENING INTERVENTIONS**

Three nursing homes in the Netherlands

Students develop individualized playlists for people with dementia and learn to do research tasks.
